

Flitner Ranch horses are bred to handle this big rugged county. They cover more miles and see more cattle in a summer than many horses will see in a lifetime. Most days our horses load in the trailers before daylight and come home in the dark. Our cowboys often bring a trailer load of young horses and usually ride several horses a day.

From our broodmare band, we ride everything we raise. The mares are run out all summer and fall and only come in to the headquarters in the dead of winter. The mares will typically stand 15-hands and 1100-1300 pounds, all of it on good feet and bone.

We believe in riding our mares as well as our geldings. The studs are also in the riding strings when the breeding is done. From our broodmares to our weanlings, every horse earns the right to stay. We select for common sense, athletic ability, disposition and color. If a horse isn't willing, handy and sharp, it won't be here long.

We only have a sale every five years and our goal is to offer more quality, one brand, ranch raised, riding horses than anywhere in the country. Horses raised here will do well anywhere. Enjoy the catalogue and we look forward to seeing you at the May 18th sale. ✨

Sunny Two Eyed Doc

REFERENCE SIRE

Palomino Stallion, May 15, 1999

AQHA 3907839

This is a palomino that gets noticed. We have often had people stop by the road to take pictures of him when he's out with the mares. He has tremendous color and his pedigree is good as gold as well. This is a stallion with Doc Bar and Two Eyed Doc on his papers, both AQHA legends in their own right. His grandsire, Clarks Doc Bar has produced many point earning AQHA horses and many money winners in the cutting arena. His AQHA Sire information shows over a million earned in cutting as well as money earners in Reining the Palomino and Buckskin Associations. He produced World Champions and Reserve World Champions in Open, Amateur and Youth.

We looked at a lot of studs all over the country before we brought this one home. DC has a big hip and tremendous depth of muscle. He stands on plenty of bone and has outstanding conformation. He has a friendly disposition and isn't afraid of work.

The best asset this stallion possesses is in the mind and heart of his colts. His babies are willing, friendly and intelligent making them easy to start and easy to work with. They have a nice hip, heavier bone and cow sense, making them valuable to both cowboys and ropers or anyone who appreciates a good horse. We are extremely happy with this stallion and believe his colts will be an asset to any program.

This is a stallion we kept out of our outstanding ranch sire Paps Driftwood Cody. He is everything that Pappy was only in a slightly smaller package but with an even more powerful hip. He was born here on the ranch and has had a job ever since. We have competed in ranch horse competitions and ranch roping with this horse. He has that classic ranch roan hide, refined head, and is athletic and quick minded. **Lil Paps** dam Shanna Kay, was a beautiful yellow dun who produced for us till 20; she has a pedigree packed full of color producers and goes back to Jet Smooth and Jessie James.

This is a very nice stallion we have been using for the past few years. Registered brown, he is actually almost black. He is out of an own son of Doc Tari, SR Doctor Tari, who was out of an own daughter of Sugar Bars. The top side of his pedigree is royal purple. His dam was an outstanding big, black ranch mare that we had for many years. She worked on the ranch and Morgan showed her in 4-H. **Black Tari** has been a nice addition to our stallions. Tari was used on the ranch and he competed in several Ranch Horse Competitions. He throws pretty colts with great color and personality. He is one of the quickest and cowiest horses to ever be on this ranch and his colts are sharp, smooth and fast.

SALE GELDING/
REFERENCE SIRE
AQHA 4781332

This is a very flashy yellow roan; an own son of the 1997 AQHA Stallion, Yellow Roan of Texas. His sire, Yellow Roan of Texas, had a LTE of \$73,000, and his pedigree in the cutting industry was pure purple. By the NCHA Champion, Peptoboonsmal, and out of one of Doc Bar's best daughters, Doc's Steady Date, Yellow Roan of Texas went on to sire some outstanding horses. He is a smaller horse with a nice head and beautiful golden roan hide and enough chrome to keep him interesting. He may be one to excel in ranch horse or reining competition with some time. This is your chance to buy a very sharp gelding with a royal pedigree.

Quinn calls this mare **Maggie**. You might recognize her from some of our ads. She's a long, lean, pretty mare that has seen much county and many cows here on the ranch. She can rate a cow and is fun to sort on. She's a gentle mare who probably anyone who can throw a leg over her; can get along with. She's broke, straight up in the bridle and she can get a job done. You can ride her bareback, lead the kids around on her then saddle up and go to a ranch horse competition. Maggie has a good attitude and other than the fact she never turned gray, she's hard to find fault. She's one of the cowboys favorites.

A big gray gelding like so many people ask about, out of our Sunny Two Eyed Doc stud and a Prestigious Encore mare . This gelding has been at work here on the ranch for a long time. He has been used for everything on the place, brandings, drives, hauls and on many occasions as a go to gelding for the kids. They have hauled friends around on him and on occasion decorated him like a parade float. He is registered as palomino but has grayed out over the years and now wears that light silver hide just like his dam. This gelding has many years ahead of him. A big solid bay mare out of Paps Driftwood Cody. She has been ridden here on the ranch since she was broke. This is one of those mares that is big enough and stout enough to get the job done. Morgan showed **Daisy** in 4-H and FFA and she is a smart mare with the potential to be a kids horse. She is another Red China Kash product and a full sister to Red Driftwood Kash . She should work for you for years to come then spend her retirement years making more just like her. She's a nice mare and these photos don't do her justice. We have had a lot of interest in this gelding as Quinn has hauled him to brandings and ropings. He can do a job inside the arena or out. Mariah, this gelding's dam was a beautiful mare and she made some great horses. This may be her best. This is a big gelding, don't be afraid to shake your rope down and tie onto anything. Where to even begin with this great horse. He was another one of the 2007 choice colts and boy did they leave us a dandy. This is one outstanding true black gelding, he gets noticed! The cowboys have used and ridden him on the ranch and Scotty has ridden him... everywhere...bareback. His dam was our black APHA mare *Mariah* and he is out of Tari. This gelding could go so many ways, cowboy on him, turn him into a mounted shooting horse, let the ranch kids ride him around, use him for competition or just keep him in the pasture and charge admission to take pictures of him. He is that pretty. If this was a mare she would never leave the place. This is a unique opportunity to own a great gelding. This is the horse that everyone is calling about. Sorrel Gelding, 2009

We call him **Niner**; with the numbers 9-99, what else could we call him. He's a big circle horse with miles and miles behind cattle. He is tough and just keeps going, in the badlands, mountain or feedlot. This horse needs a confident rider, he's got lots of gas in the tank, and he's going somewhere. A well put together gelding with years in front of him.

That roan hide is sure nice to look at; and the mare that wears it is just as nice. This is a horse that anyone can get along with, her resume would say “ been there; done that”. She’s been used to rope and brand, she’s sorted calves, cows and horses. She worked the feedlot and has been on some long circles. If you like to ride you will enjoy Molly.

If you see his markings, you know why they called him **Spade**. A tall sorrel with a spade shaped star. What can we say about *Moongazer's* colts that we haven't said before. They are a tall drink of water, big walking horses that can still see a cow. They have used him to rope on in the barn and feedlot. Mike said “he got turned out for a month in the cold weather and when he came back in they climbed on him and rode off; no problem”. This is a big pasture horse that a cowboy will really like.

We bought this mare as a weaning colt at a FFA auction. She has grown up to be a big, gentle mare who can hold her own with the geldings. She was so big as a two-year-old at the barn they thought she was three. She has been ridden many miles and will just get better with age. Shoshoni stands on plenty of bone and should last for years. If you are big enough to throw a saddle on this stout mare; you will probably be able to get along with her. That ranch roan hide doesn't hurt her future in the broodmare band if that's what you want in another 10 years.

This was Scotlyn's step-up horse. Scotty used her for everything. She's been in rodeos, playdays and fairs. She used her for Queen competitions and she has been in parades. Chrissy has had many, many miles behind cattle and after rabbits and horny toads. Before we owned her they did some ranch horse competitions on her. You can ride her bareback and she has been shown in both Western and English. **Chrissy** is a nice colored red dun and we have really enjoyed having her, but Scotlyn has moved up to a younger horse and needs to spend her time there. This is a chance for someone to get a nice horse that everyone could enjoy.

Scotty has ridden this pony the last few years. He's really a pretty little paint gelding, built more like a horse than pony. He can walk out with any of the big horses and likes to cover the country. Scotty has used him behind cows, for fun days, fairs, parades and at some kid's rodeos. He is best when competing in the arena with kids who know how to ride and don't let him get away with things. He's just big enough to earn his keep on the ranch. We have never roped on him but I don't think it would take much to teach him. He would be a fun step-up horse for a kid who can ride or a nice trail horse for the family.

Jordan and **Dancer** have spent hours, hours and hours together. This pretty dark bay mare was used in kids rodeos and play days. She ran the barrels, poles, tied goats did flag races, ribbon races and potato jousting. She has been shown at fair in every event, English, Western and even Program Ride. Jordan won the overall Intermediate rider at county fair with her. In 2010 Dancer was kicked in the shoulder and injured. She has been out with the broodmares since then but we think she would still be alright for a smaller rider who didn't push her too hard. Her breeding is speed top and bottom, and she is still in great shape. This is a great chance for someone to have a really nice mare; a great start for a younger ride.

What he lacks in size he makes up for in heart; he has got some gas. He's smart and really needs a job; he's at his best when he has something to do. He likes cows and has a big horse walk. You don't usually see this nice dun color out of a Roos mare, but it sure can happen. This mare is a registered bay but I would call her a dun. She is a red mahogany with black points and a dorsal stripe. She has a refined head and very nice conformation. She is quiet and has a real gentleness about her. Morgan put a lot of miles on her when she was younger and she showed her in 4-H and rode her on the ranch. She had a snappy palomino colt in 2012 and a sorrel filly in 2012 so you can buy her to breed or ride, or maybe both. Buy her for her looks and love her for her ability, she's the kind to haul home.

There will be a great deal of variation in the photos you'll see throughout the catalog. They were taken different times of the year and in different places. The horses will be in their working clothes, sometimes mud, crud and all. ... they'll have a bath by May. As with most things we do here, the 2014 catalog was a family and crew undertaking. You will see a little something from every one, pictures, descriptions and a little humor too.

We are very lucky in this valley to have some very talented neighbors who helped make this project possible. We'd like to thank Ann Hanson and Pat Weiner for sharing their photography. Morgan Flitner took a majority of the Lot Photos and thanks also to Cate Callantine for her humor and help.

Our descriptions are pretty simple. You won't find a lot of racing or show information. That's not really how we think about our horses. We ride them, we know them from hours in the saddle, calves pulled to the fire and the generations from a stallion or broodmare we have raised and trained. If you would like more pedigree information we'd be happy to help and the AQHA has information available through its website.

Thanks for taking the time to look and we hope you will enjoy the information.

This colt is the color of a shiny new penny. His dam, *Darlin*, was a mare we used here on the ranch, and one of the 4-H horses until she was injured. She is a full sister to GO Smooth Pay, the 2012 ranch roan gelding just described. We used her for everything here, and she was on her way to be a good ranch horse competition mount. This colt goes back to Dash for Cash bottom and Sun Frost on top, with those genetics you should be able to pick your pleasure.

She went to the mountains as a baby and came back with a twisted neck; because of this we never rode her. But because of her dam and siblings we put her in the broodmare band. There she has excelled: 13 colts in 13 years; the way we run out that says something. Take a moment to look through the book and you will see her colts in almost every age group.
